

ENTERTAINMENT FOR KIDS

The entertainment service is for children only.

The Mini-Club service works in the morning mainly at the beach while in the afternoon alternates games and laboratory activities both at the beach and in the Village areas.

The Mini-Club area is reserved for our guests. Colourful and amusing, it is provided with the game structure "SOFT MODULAR PLAY" and is safe thanks to electronic controlled access.

Games are structured according to the different ages of children: 0-3 and 4-8 years old.

The area is also provided with a small library for children.

BEACH AND SEA

The sandy beach is the best place where your kids can play, and it is located only 10 metres away from the village. The sea is clean (blue flag since 2003), calm and protected by the nearby cliffs.

Entering in the water is extremely easy because the water is very shallow; for at least 20 metres it does not exceed a depth of thirty centimetres, making it ideal for families with small children, who can play safely and be supervised from a distance; Our staff takes advantage of this in order to entertain our young guests in the water.

The public beach in front of the village can be freely used by our guests, who can also use one beach umbrella with two deck chairs provided free of charge.

For those who would like to use the services of the close beach establishment, reduced fares are available for our guests.
